

**BEFORE USING THE LOG BURNER AND/OR THE CHIMINEA PLEASE READ**  
**THE FOLLOWING TO ENSURE YOU COMPLY WITH THE LANDLORD'S RULES**

**Log burner**

- Do not use any wood/materials from the site or the surrounding forest in the log burner. Logs and kindling can be purchased from the BP garage at Aviemore.
- When starting a fire in the log burner use kindling at first along with fire sticks or rolled up newspaper. Once the fire is going add 2-3 small logs to keep it burning. This is more than enough to keep you warm, whilst keeping your fire under control.
- Do not use the fire as a waste incinerator.
- Do not add any materials to the log burner other than kiln dried logs, kindling, newspaper and firelighters if required.
- Do not allow clothes, towels etc. to dry on and/or near the appliance, in order to prevent fire.
- Avoid contact with a burning fire in order to prevent burns and/or clothes catching fire
- During use, the outside of the fire will become very hot. Therefore, you should use the supplied glove when operating the fire.
- Never leave the log burner unattended when lit and be aware of the proximity of members of your party, particularly children and animals, ensuring they are at a safe distance at all times.
- Be sure there are no flammable objects above, around or in contact with the log burner during use.
- Allow the log burner to burn out and cool naturally. Never use water to extinguish the fire as this may cause damage to you and the log burner.
- The fire is intended as atmospheric heating and is not developed for continuous use as main heating.
- The log burner is not suitable for use as a barbecue.

**Chiminea**

- Do not use any wood/materials from the site or the surrounding forest in the log burner. Logs and kindling can be purchased from the BP garage at Aviemore.
- When starting a fire use kindling at first along with fire sticks or rolled up newspaper. Once the fire is going add 2-3 small logs to keep it burning. This is more than enough to keep you warm, whilst keeping your fire under control.
- Do not use the fire as a waste incinerator.
- Do not add any materials to the chiminea other than kiln dried logs, kindling, newspaper and firelighters if required.
- Never leave the chiminea unattended when lit and be aware of the proximity of members of your party, particularly children and animals, ensuring they are at a safe distance at all times.
- Be sure there are no flammable objects above, around or in contact with the chiminea during use.
- Allow the chiminea to burn out and cool naturally. Never use water to extinguish the fire as this may cause damage to you and the chiminea.
- Always ensure the chiminea has completely cooled before moving or covering.
- The chiminea is not suitable for use as a barbecue.
