\* Reference program for the Testing Institute and energy labeling. Testing program: Eco 50°C as compliant to EN 50242 international norms.

\*\* Values declared on the product or in the User Instructions / program chart and quick reference sheet supplied with the appliance are obtained in tests performed under controlled laboratory conditions and these tests are as defined in relevant standards. These figures may vary depending on how soiled the dishes are, the water hardness level and other factors. Temperature changes exceeding 15°C may also effect these figures.

\*\* Due to the continual improvement through research and development, specifications and design may change without prior notice.
