

# Osprey Apartment

## Important note regarding the heating control in Mountain Hare Apartment and Osprey Apartment

The heating in this property is controlled via a wi-fi link between the cylinder cupboard in Mountain Hare Apartment and the first-floor stat. This will be overridden by the master control located in the ground floor kitchen if tampered with.

A note has been added within this area to advise occupiers in the property below that they **MUST** not shift the zone settings on the master controller.

If you notice changes in the heating within this property; it may be worth checking with the occupiers below to see if the zone has been changed from zone 1 to zone 2 by mistake.
